

St Aloysius College

Intimate Care Policy

This Intimate Care Policy was evolved by consideration between staff and governors and was approved on

This policy will be reviewed on

St. Aloysius' College

Intimate Care Policy

St. Aloysius' College is committed to providing personal care that has been recognised as an assessed need and indicated in the care plan for an individual child, in ways that:

- maintain the dignity of the individual child.
- are sensitive to their needs and preferences.
- maximise safety and comfort.
- protect against intrusion and abuse.
- respect the child's right to give or withdraw their consent.
- encourage the child to care for themselves as much as they are able and protect the rights of everyone involved.

The **diversity** of individuals and communities **is valued and respected**.

No child or family is discriminated against.

Definition

Intimate personal care includes hands-on physical care in personal hygiene, and physical presence or observation during such activities.

Intimate personal care tasks can include:

- body bathing other than to arms, face and legs below the knee.
- toileting, wiping and care in the genital and anal areas.
- dressing and undressing.
- application of medical treatment, other than to arms, face and legs below the knee.
- supporting with the changing of sanitary protection.

Scope

This policy addresses the support of vulnerable groups of children and young people that may require support with personal care on either a short, longer term or permanent basis due to SEN and disability, medical needs or a temporary impairment. This could include:

- children and young people with limbs in plaster.
- children and young people needing wheelchair support.
- children and young people with pervasive medical conditions.

St. Aloysius' College is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a professional manner at all times. We recognise that there is a need to treat all children with respect and dignity when intimate care is given. No child should be attended to in a way that causes distress, embarrassment or pain.

Children's dignity will be preserved and a high level of privacy, choice and control will be provided to them. Staff that provide intimate care to children have a high awareness of safeguarding issues. Staff will work in partnership with parents/carers to provide continuity of care.

Definition

Intimate care is any care which involves washing, touching or carrying out an invasive procedure to intimate personal areas. In most cases such care will involve procedures to do with personal hygiene and the cleaning of associated equipment as part of the staff member's duty of care.

Our Approach to Best Practice

The management of all children with intimate care needs will be carefully planned. The child who requires care will be treated with respect at all times; the child's welfare and dignity is of paramount importance.

Staff who provide intimate care are fully aware of best practice. Suitable equipment and facilities will be provided to assist children who need special arrangements following assessment from the appropriate agencies.

It is essential that the adult who is going to change the child informs the teacher and/or another member of staff that they are going to do this. There is no written legal requirement that two adults must be present. However, in order to completely secure against any risk of allegation, a second member of staff may be present where resources allow.

The child will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each child to do as much for him/herself as they are able.

Individual intimate care plans will be drawn up for children as appropriate to suit the circumstances of the child.

Each child's right to privacy will be respected. Careful consideration will be given to each child's situation to determine how many carers will need to be present when the child is toileted.

Wherever possible the child should be cared for by an adult of the same sex.

However, in certain circumstances this principle may need to be waived where the failure to provide service.
