Dear Parent/Carer

### Re: Work related learning –Life skills experience

Your young adult is now in year 12 which is a very important time with much studying to do, exams to pass, and decisions about their future to be made. They also have to get ready for the world of work after school/college/university. With this in mind, as part of the Work Related Learning Programme in the school, they will undertake a five day 'Work Experience'.

**This will be from Monday 12<sup>th</sup> June until Friday 16<sup>th</sup> June 2017.**

Relevant work experience is looked on very favourably by University admissions departments and future employers. The dates above have been set aside by the school as a convenient time for this exercise to take place. We are however aware that 6<sup>th</sup> form students may already be working or have a placement set up for the summer vacation. If this is the situation, please let us know as another work experience would **not** be required by the school.

I am keen for the students to start making arrangements for their own work experience placements. Perhaps you know a friend or relation that could offer a place; perhaps you yourself could offer a place for your son/daughter or one of their friends at the school. We have found over the years that the work experience placements found by the students themselves or their family are the most successful and worthwhile.

The health and safety of your son/daughter is of paramount importance while on work experience. The establishment that takes your son/daughter may need a visit to satisfy our requirements that the job is appropriate and safe.

I would therefore ask you to complete the own placement form overleaf with the required information and return it to Maggi Vaughan in the 6<sup>th</sup> form office or myself as soon as possible.

Yours sincerely,

Mr B. Butler  
Work Related Learning Coordinator
